

Session Program

3-8 Mar 2014

ALICE Physics Analysis and Tier-1/2 Workshop ***Heavy quark, Low mass di-lepton, Intense field***

Tuesday 4 March

11:00

Heavy quark, Low mass di-lepton, Intense field

Session | **Location:** | **Convener:** Dr Andreas Morsch

11:00-11:30

Heavy flavor measurements in ALICE

Speaker

Zaida Conesa Del Valle

11:30-12:00

EPOS predictions on D mesons and photons

Speaker

BENJAMIN Guiot

12:00-12:30

Intense magnetic field effects

Speaker

Kenta Shigaki

12:30
