Report of Abstracts

Abstract ID : **113**

Heavy flavor production and decays at colliders

Abstract content

Status: I will use some material already prepared for the postgraduate courses at the University of London about CP violation and QCD, simplifying a bit and reducing the scope. I will also briefly describe the main ideas behind accelerator concepts of b-factories.

Summary

Primary author(s) : CAMPANELLI, Mario (University College London (UK))

Presenter(s) : CAMPANELLI, Mario (University College London (UK))

Status: SUBMITTED
