The undersigned hereby transfer any and all rights in and to The Work including without limitation all copyright rights in the above Work to ESA and CERN. This transfer includes the right to provide The Work in electronic and online forms and systems. The undersigned hereby represents and warrants that The Work is original and that he/she is the author of The Work or otherwise has the power and authority to make and execute this assignment.

Returned and Retained Rights: In return for these rights, ESA and CERN recognize the retained rights noted in item 1 below and grant to the above authors and employers for whom the work was performed royalty-free permission to reuse their material as noted in items 2, 3 and 4.

1. Employers (or authors) retain all proprietary rights in any process, procedure, or article of manufacture described in The Work.
2. Authors may re-use all or portion of the above Work in other works.
3. Authors/employers may reproduce or authorize others to reproduce the above Work (or derivative works) for the author's personal use or for internal company use provided that the source and the ESA - CERN copyright notice are indicated, that the copies are not used in any way that implies ESA and CERN endorsement of a product or service of an employer, and that the copies per se are not offered for sale.
4. Authors/employers may make limited distribution of all or portions of the above Work prior to publication if they inform ESA and CERN of the nature and extent of such limited distribution prior thereto.

In the event the above paper is not accepted and published by ESA and CERN or is withdrawn by the author(s) before acceptance by the Workshop Program Committee, this agreement becomes null and void.
