

Session Program

2-7 Jun 2014

**Large Hadron Collider Physics (LHCP)
Conference**

Parallel: QCD 2

Columbia University, New York, USA

Thursday 5 June

13:45

Parallel: QCD 2

Session | **Location:** Columbia University, New York, USA, Lerner Hall (5th Floor): Satow Room | **Conveners:** Eugenio Scapparone, Sung Won Lee, Christina Mesropian, Andrew Pilkington

13:45-14:03

Vector boson production in association with jets and heavy flavor quarks at CMS

Speaker

Philippe Gras

14:03-14:21

Measurements of the production of vector bosons in association with heavy flavour quarks at the LHC

Speaker

Ulrike Blumenschein

14:21-14:39

HERAFitter - open source QCD Fit framework and related studies

Speaker

Pavel Starovoitov

14:39-14:57

HERAPDF2.0 data combination and PDF fits

Speaker

Olaf Behnke

14:57-15:15

NNNLO Higgs Production

Speaker

Elisabetta Furlan

15:15-15:30

Discussions

15:30
