

Session Program

2-7 Jun 2014

**Large Hadron Collider Physics (LHCP)
Conference**

Parallel: Heavy Flavor 2

Columbia University, New York, USA

Sunday 1 June

13:45

Parallel: Heavy Flavor 2

Session | **Location:** Columbia University, New York, USA, Lerner Hall (5th Floor): Satow Room | **Conveners:** Yasmine Sara Amhis, Andrew Pilkington, Christina Mesropian

13:45-14:03

Charmonium photoproduction in ultra-peripheral p-Pb and Pb-Pb collisions at the LHC with the ALICE experiment

Speaker

Michal Broz

14:03-14:21

Exotic Charmonium-like Spectroscopy at LHCb

Speaker

Monica Pepe-Altarelli

14:21-14:39

Production and spectroscopy of quarkonia states at the ATLAS experiment

Speaker

Darren Price

14:39-14:57

Bs(mumu) in CMS

Speaker

Franco Ligabue

14:57-15:15

Electroweak penguin decays at LHCb

Speaker

Michel De Cian

15:15-15:33

Direct CP asymmetries in three-body B decays

Speaker

Prof. Hsiang-nan Li

15:33
