

Session Program

3-7 Mar 2008

LTC Extended meeting

Session 3 - Possible injection into part of the machine, preparation for beam

CERN, CCC Conference Room
874-1-011

Tuesday 4 March

14:00

Session 3 - Possible injection into part of the machine, preparation for beam

Session | **Location:** CERN, CCC Conference Room, 874-1-011

14:00-14:45

Options for possible sector test

Speaker

Mike Lamont

14:45-15:15

Radiation Protection implications of possible sector test

Speakers

Doris Forkel-Wirth, Dr Helmut Vincke

15:15-15:45

--- Coffee break ---

15:45-16:15

Stopping the beam in a possible sector test

Speaker

Stefano Redaelli

16:15-17:00

Proposed tests with beam

Speaker

Massimo Giovannozzi

17:00-17:30

Quenches with beam

Speaker

Ralph Assmann

17:30
