

Session Program

14-16 Apr 2008

3rd Workshop on Advanced Silicon Radiation Detectors (3D and P-type Technologies)

P-type strip detectors 3

Residencia CSIC-Generalitat de Catalunya, Barcelona, Spain
Residencia de Investigadores del CSIC-Generalitat de Catalunya Carrer Hospital, 64. E08001,
Barcelona, Spain

Monday 14 April

16:30

P-type strip detectors 3

Session |

Location: Residencia CSIC-Generalitat de Catalunya, Barcelona, Spain, Residencia de Investigadores del CSIC-Generalitat de Catalunya Carrer Hospital, 64. E08001, Barcelona, Spain

16:30-17:00

Liverpool charge collection results on RD50 p-type sensor sets

Speaker

Dr Anthony Affolder

17:00-17:30

Characterization of P-type Silicon Detectors Irradiated with Neutrons

Speaker

Mercedes Minano Moya

17:30-18:00

Measurement of charge collection in p-type microstrip sensors with SCT128 chip

Speaker

Igor Mandic

18:00-18:30

Beam telescope for testing p- and n-type detectors

Speaker

Panja-Riina Luukka

18:30
