

XI International Conference on Hyperons, Charm and Beauty Hadrons

Monday, 21 July 2014 - Saturday, 26 July 2014

University of Birmingham, UK

Book of Abstracts

Contents

Introductory Lecture	1
Status of the PIENU experiment	1
QCD tests with kaons	1
SIDDHARTA and AMADEUS	1
Lattice QCD (kaons)	1
Measurement of $BR(K^+ \rightarrow \pi^+\pi^+\pi^- (\gamma))$ at KLOE	1
Strangeness in ALICE	1
Spin observables in antihyperon-hyperon production with PANDA	2
Quarkonia and Exotics at LHCb	2
Hyperon form factors in e^+e^- annihilations	2
Quarkonium and spectroscopy	2
Quarkonia at ATLAS	2
Quarkonia and exotics at CMS	2
Lattice QCD (B, D)	2
Charm spectroscopy at LHCb	3
The BESIII experiment	3
Bottonium studies at Belle	3
Long distance structure of $X(3872)$	3
Properties of doubly and triply heavy baryons	3
Hadronic B decays	3
Gamma measurements in LHCb	3
CPV in B decays	3
CPV in Bs at LHCb	4

CPV at Belle	4
Charmless B decays at LHCb	4
Charmless B decays at Babar	4
Theory B mixing	4
B and Bs mixing in LHCb	4
CPT tests at KLOE	4
Leptogenesis	5
Belle II	5
LHCb Upgrade	5
Summary talk (exp.)	5
Summary talk (theo.)	5
Charm mixing and CPV in LHCb	5
CPV in charm - theory	6
Charm CPV and mixing at Belle	6
Neutrino oscillation review	6
CPV in the neutrino sector	6
T2K and HyperK	6
Nova and LBNE	6
Theory oscillation and sterile neutrinos	6
W,Z+c,b at CMS	7
W,Z+c,b at ATLAS	7
Masses and lifetimes at LHCb	7
Heavy flavour at ALICE	7
Theory QGP	7
Heavy flavour production at HERA	7
B hadron production and decay at ATLAS	7
B form factors	8
Radiative decays at LHCb	8
Top quark production in ATLAS	8
Theory: top production	8

Top studies at CDF	8
Open charmed hadrons at ALICE	8
FCNC in top at CMS	8
Theory: top decay	8
Top coupling and polarization at CMS	9
Top studies at D0	9
Top properties from ATLAS	9
Baryogenesis	9
Symmetry violations at Babar	9
Semileptonic B decays at Belle	9
Heavy flavour at D0 and CDF	9
Theory of B_q to $\mu\mu$	10
Rare kaon decays - theory	10
Recent results from KOTO	10
K^+ to $\pi^+ \nu\nu$ at NA62	10
Penguin and rare decays in Babar	10
New physics with heavy flavour at ATLAS	10
Electroweak penguin decays in LHCb	11
Rare B,D decays	11
Rare and forbidden B and tau decays in Belle	11
Theory baryon decays	11
b-baryons in LHCb	11
Charmonium with effective Morse potential	11
Bc physics at LHCb	11
Electromagnetic structure of charmed hadrons	11
Rare charm decays	12
Neutrinoless double beta decays	12
The GERDA experiment	12
The HPS experiment at JLab	12
$g-2$ and $\text{Mu}2e$	12

mu to eg, 3e	12
g-2 - theory	12
LFV and exotics at NA62	13
The TREK experiment	13
LFV theory	13
The COMET and DeeMe experiments	13
Angular analysis and CP violation studies in B decays at CMS	13
Non-lattice QCD for heavy flavour physics	13
Quarks Matter !	13
Guest Lecture: Gravitational Waves and the early universe	14
Poster	14
Poster	14
Poster	14

Session 1 / 70

Introductory Lecture

Corresponding Author: jernej.kamenik@ijs.si

Session 1 / 71

Status of the PIENU experiment

Corresponding Author: toshio@triumf.ca

Session 1 / 72

QCD tests with kaons

Corresponding Author: mauro.raggi@cern.ch

Session 1 / 73

SIDDHARTA and AMADEUS

Corresponding Author: mihai.iliescu@lnf.infn.it

Session 1 / 74

Lattice QCD (kaons)

Corresponding Author: nhc@phys.columbia.edu

Session 2 / 75

Measurement of BR($K^+ \rightarrow \pi^+\pi^+\pi^- (\gamma)$) at KLOE

Corresponding Author: patrizia.de.simone@cern.ch

Session 2 / 76

Strangeness in ALICE

Corresponding Author: david.dobrigkeit.chinellato@cern.ch

Session 2 / 77

Spin observables in antihyperon-hyperon production with PANDA

Session 2 / 78

Quarkonia and Exotics at LHCb

Corresponding Author: ghez@lapp.in2p3.fr

Session 2 / 79

Hyperon form factors in e^+e^- annihilations

Corresponding Author: kseth@northwestern.edu

Session 3 / 80

Quarkonium and spectroscopy

Corresponding Author: nora.brambilla@cern.ch

Session 3 / 81

Quarkonia at ATLAS

Corresponding Author: vakhtang.kartvelishvili@cern.ch

Session 3 / 82

Quarkonia and exotics at CMS

Corresponding Author: i.kratschmer@cern.ch

Session 3 / 83

Lattice QCD (B, D)

Corresponding Author: andreas.juttner@cern.ch

Session 4 / 84

Charm spectroscopy at LHCb

Corresponding Author: stephen.ogilvy@cern.ch

Session 4 / 85

The BESIII experiment

Session 4 / 86

Bottomium studies at Belle

Session 4 / 87

Long distance structure of X(3872)

Corresponding Author: jmnieves@ific.uv.es

Session 4 / 88

Properties of doubly and triply heavy baryons

Corresponding Author: kazem.azizi@cern.ch

Session 9 / 89

Hadronic B decays

Corresponding Author: bell@itp.unibe.ch

Session 9 / 90

Gamma measurements in LHCb

Corresponding Author: alexis.vallier@cern.ch

Session 9 / 91

CPV in B decays

Corresponding Author: r.fleischer@vu.nl

Session 9 / 92

CPV in Bs at LHCb

Corresponding Author: debruyn@c ppm.in2p3.fr

Session 9 / 94

CPV at Belle

Corresponding Author: zbynek.drasal@cern.ch

Session 10 / 96

Charmless B decays at LHCb

Corresponding Author: d.a.dossett@warwick.ac.uk

Session 10 / 97

Charmless B decays at Babar

Corresponding Author: t.latham@warwick.ac.uk

Session 10 / 99

Theory B mixing

Corresponding Author: christoph.bobeth@ph.tum.de

Session 10 / 100

B and Bs mixing in LHCb

Corresponding Author: giulia.tellarini@cern.ch

Session 19 / 102

CPT tests at KLOE

Corresponding Author: michal.silarski@lnf.infn.it

Session 19 / 103

Leptogenesis

Corresponding Author: pedro@physik.unizh.ch

Session 19 / 104

Belle II

Corresponding Author: giulia.casarosa@cern.ch

Session 19 / 105

LHCb Upgrade

Corresponding Author: simon.akar@cern.ch

Session 20 / 106

Summary talk (exp.)

Corresponding Author: gibson@hep.phy.cam.ac.uk

Session 20 / 107

Summary talk (theo.)

Corresponding Author: sebastian.jaeger@cern.ch

Session 15 / 108

Charm mixing and CPV in LHCb

Corresponding Author: artur.ukleja@cern.ch

Session 15 / 109

CPV in charm - theory

Corresponding Author: apetrov@wayne.edu

Session 15 / 110

Charm CPV and mixing at Belle

Corresponding Author: byeong.rok.ko@cern.ch

Session 15 / 111

Neutrino oscillation review

Corresponding Author: lwhitehead@bnl.gov

Session 16 / 112

CPV in the neutrino sector

Corresponding Author: pakvasa@phys.hawaii.edu

Session 16 / 113

T2K and HyperK

Corresponding Author: francesca.di.lodovico@cern.ch

Session 16 / 114

Nova and LBNE

Corresponding Author: m.tamsett@sussex.ac.uk

Session 16 / 115

Theory oscillation and sterile neutrinos

Corresponding Author: palazzo@mpp.mpg.de

Session 5 / 116

W,Z+c,b at CMS

Corresponding Author: vieri.candelise@ts.infn.it

Session 5 / 118

W,Z+c,b at ATLAS

Corresponding Author: miriam.watson@cern.ch

Session 5 / 119

Masses and lifetimes at LHCb

Corresponding Author: lucio.anderlini@cern.ch

Session 5 / 120

Heavy flavour at ALICE

Corresponding Author: bastid@clermont.in2p3.fr

Session 5 / 121

Theory QGP

Corresponding Author: steinheimer@th.physik.uni-frankfurt.de

Session 6 / 122

Heavy flavour production at HERA

Corresponding Author: ringaileplacakyte@gmail.com

Session 6 / 124

B hadron production and decay at ATLAS

Corresponding Author: evelina.bouhova@cern.ch

Session 7 / 126

B form factors

Session 7 / 128

Radiative decays at LHCb

Corresponding Author: zhirui.xu@cern.ch

Session 7 / 129

Top quark production in ATLAS

Corresponding Author: minoru.hirose@cern.ch

Session 7 / 130

Theory: top production

Session 7 / 131

Top studies at CDF

Corresponding Author: giorgio.chiarelli@pi.infn.it

Session 6 / 132

Open charmed hadrons at ALICE

Corresponding Author: marcel.figueredo@cern.ch

Session 8 / 133

FCNC in top at CMS

Corresponding Author: tae.jeong.kim@cern.ch

Session 8 / 134

Theory: top decay

Corresponding Author: cen.zhang@uclouvain.be

Session 8 / 135

Top coupling and polarization at CMS

Corresponding Author: giuseppe.codispoti@cern.ch

Session 8 / 136

Top studies at D0

Corresponding Author: peters@fnal.gov

Session 8 / 137

Top properties from ATLAS

Corresponding Author: martis@ific.uv.es

Session 11 / 138

Baryogenesis

Corresponding Author: stephan.huber@cern.ch

Session 11 / 139

Symmetry violations at Babar

Corresponding Author: a.j.bevan@qmul.ac.uk

Session 11 / 140

Semileptonic B decays at Belle

Corresponding Author: alexei.sibidanov@cern.ch

Session 11 / 141

Heavy flavour at D0 and CDF

Corresponding Author: i.bertram@lancaster.ac.uk

Session 11 / 142

Theory of B_q to $\mu\mu$

Corresponding Author: matthias.steinhauser@uka.de

Session 12 / 143

Rare kaon decays - theory

Corresponding Author: antonio.pich@uv.es

Session 12 / 144

Recent results from KOTO

Corresponding Author: togawa@bnl.gov

Session 12 / 145

K^+ to $\pi^+ \nu \nu$ at NA62

Corresponding Author: francesca.bucci@cern.ch

Session 12 / 146

Penguin and rare decays in Babar

Corresponding Author: simon.akar@cern.ch

Session 13 / 147

New physics with heavy flavour at ATLAS

Corresponding Author: ina.carli@cern.ch

Session 13 / 148

Electroweak penguin decays in LHCb

Corresponding Author: patrick.haworth.owen@gmail.com

Session 13 / 149

Rare B,D decays

Corresponding Author: jmartincamalich@ucsd.edu

Session 13 / 150

Rare and forbidden B and tau decays in Belle

Corresponding Author: hjhyun@gmail.com

Session 13 / 151

Theory baryon decays

Corresponding Author: wang@hep.physik.uni-siegen.de

Session 14 / 152

b-baryons in LHCb

Corresponding Author: james.mccarthy@cern.ch

Session 14 / 153

Charmonium with effective Morse potential

Session 14 / 154

Bc physics at LHCb

Corresponding Author: xuhao.yuan@cern.ch

Session 14 / 155

Electromagnetic structure of charmed hadrons

Session 14 / 156

Rare charm decays

Corresponding Author: svjetlana.fajfer@ijs.si

Session 17 / 157

Neutrinoless double beta decays

Session 17 / 158

The GERDA experiment

Session 17 / 159

The HPS experiment at JLab

Corresponding Author: andrea.celentano@cern.ch

Session 17 / 160

g-2 and Mu2e

Session 17 / 161

mu to eg, 3e

Corresponding Author: angela.papa@psi.ch

Session 18 / 162

g-2 - theory

Corresponding Author: liliana@physics.umn.edu

Session 18 / 163

LFV and exotics at NA62

Corresponding Author: viacheslav.duk@cern.ch

Session 18 / 164

The TREK experiment

Corresponding Author: djalali@physics.sc.edu

Session 18 / 165

LFV theory

Corresponding Author: paride.paradisi@cern.ch

Session 18 / 166

The COMET and DeeMe experiments

Corresponding Author: a.edmonds@ucl.ac.uk

Session 6 / 167

Angular analysis and CP violation studies in B decays at CMS

Corresponding Author: kai-feng.chen@cern.ch

Session 6 / 170

Non-lattice QCD for heavy flavour physics

Quarks Matter !

Corresponding Author: solomey@fnal.gov

Session 20 / 176

Guest Lecture: Gravitational Waves and the early universe

177

Poster
