

# **The 21st International Symposium on Spin Physics (Spin2014)**

**Sunday, 19 October 2014 - Friday, 24 October 2014**

**Peking University, Beijing, China.**

## **Scientific Programme**

**S1: Spin Structure of Hadrons (joint)**

**S2: Spin Structure of Nucleon (longitudinal)**

**S3: Spin Structure of Nucleon (transverse)**

**S4: Nucleon Structure (form factors, GPDs)**

**S5: Spin in Hadronic Reactions**

**S6: Spin Physics with Photons and Leptons**

**S7: Spin Physics in Nuclear Reactions and Nuclei**

**S8: Fundamental Symmetries and Spin Physics  
Beyond the Standard Model**

**S9: Accelerator, Storage and Polarimetry of  
Polarized Beams**

**S10: Polarized Ion and Lepton Sources and Targets**

**S11: Future Facilities and Experiments**

## **S12: Applications of Spin Physics**

**Poster**

**TEST**
