

**Session Program**

**10-11 Feb 2014**

**BSM physics opportunities at 100 TeV**

***EW symmetry breaking***

CERN, 4/3-006 - TH Conference Room

## Tuesday 11 February

14:00

### EW symmetry breaking

**Session** | **Location:** CERN, 4/3-006 - TH Conference Room

**14:00-14:40 Exotic Higgs decays at 100 TeV**

**Speaker**

David Curtin

**14:40-15:20 Twin Higgs: Can Naturalness Hide??**

**Speaker**

Roni Harnik

**15:20-15:50 Coffee break**

**16:00-16:15 Collider reach - Quick (and dirty) estimates for hadron machines**

**Speakers**

Andreas Weiler, Gavin Salam

**16:15-16:55 BSM Higgses at 100 TeV**

**Speaker**

Nathaniel Craig

**16:55-17:55**

**Interplay of 100 TeV observables and EWPT/Higgs-coupling observables, for weakly and strongly interacting BSM scenarios**

**Speakers**

Riccardo Rattazzi, Roberto Contino

18:00
