Service News

- <https://indico-jacow.cern.ch/>
 - Service hosting JACoW conferences
 - Connected to the JACoW user database (LDAP)
- <https://indic8r.cern.ch/>
 - Front-end for future CERN-hosted service for non-CERN communities

The screenshot shows the JACoW Indico interface. At the top, there is a navigation bar with the JACoW logo on the left and 'UTC' and 'A. Admin' on the right. Below the navigation bar, there are links for 'Home', 'Create event', 'Server admin', 'My profile', and 'Help'. The main content area is titled 'All events' and includes a welcome message: 'Welcome to Indico. The Indico tool allows you to manage complex conferences, workshops and meetings. In order to start browsing, please select one of the categories below.' A calendar view shows 'September 2014' with a specific event listed: '01 Sep - 05 Sep Linac 14'. A 'News' sidebar on the right shows 'Previous news' posted on 05/12/2013. The bottom left corner features the CERN logo and the text 'Powered by Indico'.

The screenshot shows the indic8r interface. At the top, there is a navigation bar with 'indic8r', 'About', and 'Help' on the left, and a search bar and 'Login' on the right. The main content area features a world map with blue lines radiating from it. Below the map, there are tabs for 'All Events', 'Ongoing', 'Upcoming', and 'Nearby'. A search bar is present with a 'Filter' dropdown and a 'Live search...' input field. Below the search bar, there are two event listings. The first is '5th International School of Trigger and Data Acquisition' in Budapest, Hungary, starting on 28 Jan 2014 at 00:00 (UTC). The second is 'What Next at LHC' for other institutes, starting on 6 Jan 2014 at 09:00 (Asia/Kolkata). The bottom left corner features the CERN logo and the text 'Powered by Indico'.

Next Events

- Next virtual event
 - At the end of the DB project
 - Q4 2014 ?
- Next workshop
 - 2015
 - Any candidate for hosting it?

Thank you for your participation!
