

Session Program

May 6 - 9, 2014

Questioning Fundamental Physical Principles

Session VIII

CERN, 4/3-006 - TH Conference Room

Wed, May 7

5:05 PM

Session VIII: Chair: E. Milotti

Session | Location: CERN, 4/3-006 - TH Conference Room

17:05 - 17:35

CP violation and quantum entanglement and possible spontaneous collapses of the wave function

Speaker

Beatrix Hiesmayr

17:35 - 18:05

X-ray experiments to test collapse models

Speaker

Catalina Curceanu

18:05 - 18:35

VIP-2 at Gran Sasso - an experiment to test the Pauli Principle for electrons

Speaker

Johann Marton

6:35 PM
