

TH Institute on String Phenomenology

Monday, 21 July 2008 - Friday, 15 August 2008

CERN

Scientific Programme

The scientific programme was planned to be very relaxed, in order to allow the participants to discuss informally and work during their visit.

The schedule contained a few series of two back-to-back 30 minutes seminars and/or discussions, programmed by the organizers. There were also be a number of informal coffee meetings, to chat, socialize and discuss.
