

Session Program

7-12 Sept 2014

Quark Confinement and the Hadron Spectrum XI

Parallel III: C3 Heavy Quarks

St. Petersburg

Tuesday 9 September

16:30

Parallel III: C3 Heavy Quarks: Charmonium-Like States, Exotics, Molecules

Session | Location: Petrov-Vodkin 3 | Convener: Antonio Vairo

16:30-16:50

"The coupled channel system $D^*D^*-DD^*$ and decays of doubly charm mesons molecules"

Speaker

Dr Raquel Molina

16:50-17:10

Exotic few-body systems with a heavy meson

Speaker

Yasuhiro Yamaguchi

17:10-17:30

Hadronic Molecules in the Heavy Baryon Spectrum

Speaker

David R. Entem

17:30-17:55

The recent result about Charmonium (like) states at BESIII

Speaker

Dr Weimin Song

17:55-18:20

A New Hadron Spectroscopy

Speaker

Prof. Stephen Lars Olsen

18:20
