

Session Program

7-12 Sept 2014

Quark Confinement and the Hadron Spectrum XI

Parallel VI: G4 Strongly Coupled Theories

St. Petersburg

Thursday 11 September

16:30

Parallel VI: G4 Strongly Coupled Theories

Session | Location: Deyneka 2 | Convener: Domenech Espriu Climent

16:30-17:00

Higher order calculations and the phase diagram of strongly coupled theories

Speaker

Thomas Rytto

17:00-17:30

Recent progress in holographic QCD

Speaker

Dr Matti Järvinen

17:30-17:50

The conformal window in theories beyond QCD

Speaker

Esben Mølgaard

17:50
