

Session Program

7-12 Sept 2014

Quark Confinement and the Hadron Spectrum XI

Parallel I: A1 Vacuum structure and confinement

St. Petersburg

Monday 8 September

14:00

Parallel I: A1 Vacuum structure and confinement: Focus Subsection

Session | Location: Petrov-Vodkin 1 | Convener: Manfred Faber

14:00-14:30 **QCD with axial chemical potential: possible manifestations**

Speaker

Alexander Andrianov

14:30-15:00 **Study of axial magnetic effect**

Speaker

Victor Braguta

15:00-15:30

Spontaneous symmetry breaking and anomalous transport in Weyl semimetals

Speaker

Pavel Buividovich

15:30-16:00 **Dyons and confinement at non-zero T**

Speaker

Victor Petrov

16:00
