

Session Program

7-12 Sept 2014

Quark Confinement and the Hadron Spectrum XI

Parallel III: C4 Heavy Quarks

St. Petersburg

Thursday 11 September

16:30

Parallel III: C4 Heavy Quarks: Decays and Lattice Results

Session | Location: Petrov-Vodkin 3 | Convener: Pavel Pakhlov

16:30–16:55

Lattice QCD results for mesons containing b-quarks from the HPQCD Collaboration

Speaker

Prof. Ronald Horgan

16:55–17:15

Potential description of the charmonium from lattice QCD

Speaker

Taichi Kawanai

17:15–17:35

Relativistic description of the weak decays of B_s mesons

Speaker

Rudolf Faustov

17:35–17:55

Decay constants of heavy mesons from QCD sum rules

Speaker

Dmitri Melikhov

17:55–18:15

Puzzles in Quarkonium hadronic transitions with two pion emission

Speaker

Prof. Francisco Fernandez

18:30
