

Session Program

21-27 Sept 2014

Hot Quarks 2014

Session 9

Friday 26 September

08:30

Session 9: Heavy Flavour

Session | **Location:** | **Convener:** Raphael Granier De Cassagnac

08:30–09:05 **Future of HI**

Speaker

Cyrille Marquet

09:05–09:40 **Overview of heavy flavor measurements**

Speaker

Mr Daniel Kikola

09:40–10:00

Measurement of electrons from charm and beauty-hadron decays in p-Pb collisions at $\sqrt{s_{\rm NN}} = 5.02$ TeV with ALICE at the LHC

Speaker

Jan Wagner

10:00–10:30 **Coffee break**

10:30–10:50

Study of strange mesons in $p+p$, $d+Au$ and $Cu+Cu$ collisions at $\sqrt{s_{\rm NN}} = 200$ GeV

Speaker

Mrs Priyanka Sett

10:50–11:10 **Non-Photonic Electron Measurement With STAR Experiment**

Speaker

Ms Olga Rusňáková

11:10–11:30

Measurement of beauty-hadron decay electrons in Pb-Pb collisions at $\sqrt{s_{\rm NN}} = 2.76$ TeV with ALICE

Speaker

Martin Andreas Volkl

11:30–12:10 **Discussion**

12:30
