

Session Program

27-29 May 2008

TS WORKSHOP 2008

New Projects

ARCHAMPS

Tuesday 27 May

08:30

New Projects

Session | **Location:** ARCHAMPS | **Convener:** Vincent Vuillemin

08:30-08:50 Introduction

Speaker

Vincent Vuillemin

08:50-09:10

Implementation of new injectors on CERN site and Linac IV integration

Speaker

Luz Anastasia Lopez-Hernandez

09:10-09:30

Design and future assembly of the Linac IV accelerating structures

Speaker

Pierre Bourquin

09:30-09:50

e-cloud limitations in SPS and studies toward low-temperature getter

Speaker

Paolo Chiggiato

09:50-10:10

Towards design of the Phase II collimators for LHC

Speaker

Alessandro Bertarelli

10:10-10:30

COFFE BREAK

10:30-10:50

Development of quarter-wave cavities and future prospects for superconducting cavities

Speaker

Mr Sergio Calatroni

10:50-11:10

Challenges in the design of lineal accelerators tunnels and services

Speaker

John Andrew Osborne

11:10-11:30

General CLIC alignment: progresses and strategy

Speaker

Dr Hélène MAINAUD DURAND

12:00
