

Session Program

5 January 2014

Future Prospects in High Energy Physics - Symposium in honor of the 60th birthday of Halina Abramowicz

Session 3

Tel Aviv University, lecture hall of Beit- Hatfutsot
School of Physics and Astronomy, Ramat Aviv, 69978 Tel Aviv, Israel

Sunday 5 January

14:00

Session 3

Session |**Location:** Tel Aviv University, lecture hall of Beit- Hatfutsot, School of Physics and Astronomy, Ramat Aviv, 69978 Tel Aviv, Israel |**Convener:** Katarzyna Chałasińska-Macukow

14:00–14:30

Physics scope of CLIC, a future TeV-scale e⁺e⁻ linear collider

Speaker

Lucie Linssen

14:30–15:00

Plasma wakefield acceleration and the future of particle physics

Speaker

Allen Caldwell

15:00–15:30

Status of the Cherenkov Telescope Array Project

Speaker

Stefan Schlenstedt

15:30
