

Standard Model at LHC 2014 (SM@LHC)

Tuesday, April 8, 2014 - Friday, April 11, 2014

CIEMAT (Madrid)

Scientific Program

The meeting aims to bring together both experimentalists and theorists to discuss Standard Model phenomenology and the very latest results from the LHC experiments. Topics covered are split into the following categories:

QCD (hard, soft & PDFs)

Electroweak physics

Higgs boson physics

Top quark and flavour physics
