

2014 CAP Congress / Congrès de l'ACP 2014

Tuesday, 17 June 2014

(T1-6) Quantum Optics - DAMOPC / Optique quantique - DPAMPC - C-301 (08:45 - 10:45)

-Conveners: Jack Sankey

time	[id] title	presenter
08:45	[288] Effects of Time Ordering in Parametric Down-Conversion and Frequency Conversion	QUESADA, Nicolas
09:00	[359] Improved quantum light generation in optical fibres through incoherent nonlinear optics	VIRALLY, Stephane
09:30	[130] From classical to quantum nonlinear optics in photonic structures	Prof. SIPE, John
10:00	[369] Good Vibrations: Ultrafast Quantum Processing in Molecules	Prof. SUSSMAN, Benjamin
10:30	[234] Quantum Control of Wave-Particle Duality	MANN, Robert
