

2014 CAP Congress / Congrès de l'ACP 2014

Tuesday, 17 June 2014

(T2-8) Plasma Physics and Applications - DPP / Physique et applications des plasmas - DPP - C-301 (13:45 - 15:15)

-Conveners: Chijin Xiao

time	[id] title	presenter
13:45	[158] Femtosecond few-hundreds-of-keV electron pulses from direct laser acceleration in a low-density gas	Dr VARIN, Charles
14:30	[328] Dense Plasma Focus for Isotopes Activation	Prof. XIAO, Chijin
14:45	[293] Measurements of the Temporal Evolution of Ionization States of Warm Dense Aluminum with Betatron Radiation Produced from Laser Wakefield Acceleration	Prof. FEDOSEJEVS, Robert
