

## Session Program

5-7 May 2014

## Phenomenology 2014 Symposium

**QCD**

University of Pittsburgh  
Pittsburgh, PA 15260

# Tuesday 6 May

16:30

## QCD

**Session** | **Location:** University of Pittsburgh, Benedum Hall G26 | **Convener:** Gregory Mahlon

**16:30–16:45** **Recent QCD results from ATLAS**

**Speaker**

Houry Keoshkerian

**16:45–17:00** **Jet Radiation Radius**

**Speaker**

Zhenyu Han

**17:00–17:15** **A new tool for jet definitions at high luminosity**

**Speaker**

Daniel Duffty

**17:15–17:30** **HERAFITTER: an open source QCD fit program.**

**Speaker**

Alexander Glazov

**17:30–17:45** **QCD measurements in the forward region**

**Speaker**

Marco Meissner

**17:45–18:00** **Quarkonia production at LHCb**

**Speaker**

Maddalena Frosini

**18:00–18:15** **Production of Quarkonium States at the ATLAS Experiment**

**Speaker**

Benjamin Weinert

**18:15–18:30** **Quarkonia and quarkonia-like spectroscopy at LHCb**

**Speaker**

Maddalena Frosini

18:30
