

Session Program

19-21 May 2008

1st Workshop on POver Converters for Particle Accelerators (POCPA)

S3 - Presentation from Labs

ELETTRA - 34012 Basovizza, Trieste Italy -

Tuesday 20 May

14:00

S3 - Presentation from Labs

Session | Location: ELETTRA - 34012 Basovizza, Trieste Italy -

14:00-14:30

Current development of the next generation of PSI digital controllers

Speaker

Martin Emmenegger

14:30-15:00

Current development of [120kV, 40A, 1.5ms, 2hz] klystron modulators for CERN Linac 4

Speaker

Carlos De Almeida Martins

15:00-15:30

What do we learn with Elettra Booster power converter design?

Speaker

Roberto Visintini

15:30-16:00

A novel 60 MW Pulsed Power System based on Capacitive Energy Storage for CERN PS machine

Speaker

Jean-Paul Burnet

16:00-16:15

** Coffee break **

16:15-16:45

Introduction to Elettra and preparation for the visit

Speaker

Roberto Visintini

16:45
