

EnEfficient RF Sources

Tuesday, 3 June 2014

Session 2 (11:45 - 13:15)

time	[id] title	presenter
11:45	[3] High efficiency (>70%) in the high (>1.0) microperveance klystrons	Mr PEAugER, Franck
12:15	[4] Multiple beam klystrons using double convergent electron guns with periodic permanent magnet (PPM) focusing.	IVES, Lawrence
12:45	[5] X-band high RF power testing at CERN	SYRATCHEV, Igor
