Session Program

14–16 May 2008

LoopFest VII

Session V

University at Buffalo, 120 Clemens Hall
Buffalo, New York

Thursday 15 May

08:30

Session V

Session | **Location:** University at Buffalo, 120 Clemens Hall, Buffalo, New York

08:30–09:00 **An overview of on-shell methods and their applications**

Speaker
Zvi Bern

09:00–09:30 **Automated Computation of One-Loop Amplitudes**

Speaker
Darren Forde

09:30–10:00 **Constructing loop amplitudes from tree amplitudes**

Speaker
Walter Giele

10:00
