

Session Program

14-16 May 2008

LoopFest VII

Session IV

University at Buffalo, 120 Clemens Hall
Buffalo, New York

Wednesday 14 May

16:00

Session IV

Session | **Location:** University at Buffalo, 120 Clemens Hall, Buffalo, New York

16:00–16:30

Heavy flavour corrections to DIS at 2- and 3-loop order

Speaker

Johannes Bluemlein

16:30–17:00

W production at large transverse momentum

Speaker

Johann Kuehn

17:00–17:30

Towards top-quark pair production predictions at NNLO in QCD

Speaker

Michal Czakon

17:30–18:00

$N^3\text{LO}$ $t\bar{t}$ threshold cross section

Speaker

Yuichiro Kiyo

18:00
