

Session Program

14-16 May 2008

LoopFest VII

Session VI

University at Buffalo, 120 Clemens Hall
Buffalo, New York

Thursday 15 May

10:30

Session VI

Session | **Location:** University at Buffalo, 120 Clemens Hall, Buffalo, New York

10:30-11:00

Second order QCD effects in $b \rightarrow c \ell \nu_\ell$

Speaker

Kirill Melnikov

11:00-11:30

Two-loop amplitudes for gauge boson pair production in QCD

Speaker

Grigorios Chachamis

11:30-12:00

QCD corrections to WWZ production

Speaker

Vera Hankele

12:00-12:30

NLO QCD corrections to WW+jet production at hadron colliders

Speaker

Peter Uwer

12:30
