

Session Program

3-6 Sept 2014

Future directions on heavy-ion physics in the forward region & LHC Working Group on Forward Physics and Diffraction

Student lectures

Lawrence and Kansas City

Wednesday 3 September

09:30

Student lectures

Session | **Location:** Lawrence and Kansas City | **Convener:** Guillermo Contreras

09:30–10:30 **Student lecture: New Perspectives for Hadron Physics**

Speaker

Prof. Stanley J. Brodsky

10:30–10:45 **Coffee break**

10:45–12:00 **Student lecture: Ultra-peripheral heavy-ion collisions**

Speaker

Joakim Nystrand

12:00–14:10 **Lunch break**

14:10–15:10 **Student lecture: Ultra-peripheral heavy-ion collisions**

Speaker

Joakim Nystrand

15:10–16:10 **Student lecture: The Ins and Outs of Nuclear Parton Densities**

Speaker

Ramona Vogt

16:10
