

Run 1 results: mass & couplings

Thursday 14 August 2014 14:30 (25 minutes)

In this presentation, the state of the art on the Scalar boson mass & couplings measurements with the Run 1 data from ATLAS and CMS or, if available, from the combination of the two, will be presented. Similarities and differences between the approaches followed by the two experiments as well as the systematic uncertainties will be discussed.

Presenter: Dr PETRUCCIANI, Giovanni (CERN)

Session Classification: The Brout-Englert-Higgs Mechanism
