

# Comparison of collider and non-collider DM results

*Saturday 16 August 2014 16:00 (15 minutes)*

A review of the latest results from Dark Matter searches at colliders and perspectives for the Run 2 data taking at 13 TeV. A comparison of these results with the current non-accelerator limits should be included.

**Presenter:** SRIMANOBHAS, Phat (Chulalongkorn University (TH))

**Session Classification:** Beyond the Standard Model
