

## Challenges of particle reconstruction in hadronic environment

*Monday 11 August 2014 12:10 (20 minutes)*

In this talk, the challenges of particle reconstruction in an hadronic environment will be exposed. A special emphasis will be put on particle flow techniques, and a the most striking improvements will be described. (note: the speaker should coordinate this talk with the “Run 1 legacy performance” talks from ATLAS and CMS).

**Presenter:** GRAY, Lindsey (Fermi National Accelerator Lab. (US))

**Session Classification:** LHC Run 1 Legacy
