

## Exotic quarkonium-like spectroscopy

*Monday 11 August 2014 14:25 (15 minutes)*

Review of recent results concerning the new “quarkonium-like” states (or X, Y, Z states): spectroscopy of these states, measurements of their properties (spin, mass, width, decay modes, ...) that can help understanding their nature.

**Presenter:** BONDARENKO, Olga (KVI (Netherlands))

**Session Classification:** Parallel Session 4
