

Lessons learnt from Run 1: A SUSY perspective

Saturday 16 August 2014 08:30 (25 minutes)

The presentation is supposed to be a critical review of the lessons learned from the Run 1 SUSY results from the LHC with an emphasis on the remaining “holes” in order to focus the searches at 13-14 TeV in the Run 2

Presenter: CANEPA, Anadi (TRIUMF (CA))

Session Classification: Beyond the Standard Model
