

Computing challenges for Run2

Friday 15 August 2014 14:40 (15 minutes)

Focus on issues that are common to all experiments : (i) offline resources (storage, CPU) needed for Run2; (ii) grid computing and tools; (iii) how the performances of offline software can be improved.

Presenter: Dr POGGIOLI, Luc (Universite de Paris-Sud 11 (FR))

Session Classification: LHC Experiment Readiness
