

Shkodra Workshop (6-8 October 2014)

Last news

The workshop is in its final preparation. Let's wish that you will all join us from the opening session on Monday 6 October Morning at 9am.

For the Monday Evening Party at the Castle "Flat heel shoes are needed for climbing to the castle".

At the beginning of the Party, we will have the signature ceremony of an Agreement between CERN and your Minister of Education and Sport, Albania.

As you know, we decided to work without conference fees. Unfortunately all supports we received does not cover all what we would like to offer to the Workshop participants, so in manner to fulfill all our requirements a small contribution is needed from all participants.

What we fully offer :

- The Welcome Party on Monday late Afternoon (Indeed it is offered by the French Embassy in Tirana)
- All coffee breaks
- some good surprises

We need your participation for :

- For the common lunches (a complete menu is proposed and a restaurant close to the workshop's aula) at the level of 200 leks/participant/Day. As the Workshop program is very dense, the lunch common time will allow us to remain in time for the Afternoon sessions.
- For the conference diner on Tuesday, we would like that all of you participate and especially students. Consequently we propose that :
 - the students contribute at the level of 200leks/person
 - the professionals contribution being higher (to be defined).

I hope that you would agree with our propositions.

For each of the lunches and for the diner, tickets will be sold for you. It will also allow us to estimate the number of lunches and diner to order.

Workshop localisation in Shkodra

Took it from the bottom of the Main Workshop Web page (<http://indico.cern.ch/e/Shkodra2014>)

For the organizing committee
Ludwik Dobrzyski, Adem Bekteshi, Mimoza Hafizi
