

The 5th Asian Triangle Heavy Ion Conference (ATHIC2014)

Thursday, 7 August 2014

Initial state physics (14:00 - 15:40)

time	[id] title	presenter
14:00	[19] Application of a event generator version of DHJ formula to forward hadron spectra	Prof. NARA, Yasushi
14:20	[31] Thermalization of a gluon plasma and the possible Bose-Einstein condensation	ZHOU, Kai
14:40	[64] Entropy production in the early stage of relativistic heavy-ion collisions from the Glasma	IIDA, Hideaki
15:00	[36] Anomaly-induced transport in heavy-ion collisions	HONGO, Masaru
15:20	[63] Parametric instabilities in the earliest stage of heavy ion collisions	TSUTSUI, Shoichiro
