

Session Program

9-11 Jul 2014

3rd Heavy Ion Jet Workshop

***Classic jet observables (heavy quarks) and
new jet observables***

Other Institutes
Instituto Superior Técnico, Universidade Técnica de Lisboa

Thursday 10 July

14:30

Classic jet observables (heavy quarks) and new jet observables

Session | **Location:** Other Institutes, PA1, Instituto Superior Técnico, Universidade Técnica de Lisboa

14:30–15:10 Overview of heavy quark experimental results

Speaker

Matthew Andre Nguyen

Location

Other Institutes, PA1, Instituto Superior Técnico, Universidade Técnica de Lisboa

15:10–15:30 Coherence in antennas with heavy quarks

Speaker

Manoel R. Moldes

Location

Other Institutes, PA1, Instituto Superior Técnico, Universidade Técnica de Lisboa

15:30–15:50 Feasibility of jet mass measurements in AA collisions

Speaker

Marta Verweij

Location

Other Institutes, PA1, Instituto Superior Técnico, Universidade Técnica de Lisboa

15:50–16:20 coffee

16:20–16:40 Background insensitive observables

Speaker

Leticia Cunqueiro

Location

Other Institutes, PA1, Instituto Superior Técnico, Universidade Técnica de Lisboa

16:40–17:00 Distinguishing quenched and unquenched jets

Speaker

Liliana Marisa Cunha Apolinario

Location

Other Institutes, PA1, Instituto Superior Técnico, Universidade Técnica de Lisboa

17:00–18:00 Discussion

Speaker

Urs Wiedemann

Location

Other Institutes, PA1, Instituto Superior Técnico, Universidade Técnica de Lisboa

20:00–22:00 Workshop dinner

22:00
