

# Seventh International Conference on Quarks and Nuclear Physics

## Tuesday, 3 March 2015

### Session B: Hadron spectroscopy - Salón de Honor (14:20 - 16:00)

-Conveners: Yu Jia

time	[id] title	presenter
14:20	[90] Baryon spectroscopy at MAMI	KASHEVAROV, Victor
14:45	[91] A study of the new resonance $\Lambda_c(2940)$ in the $p \bar{p} \rightarrow p D^0 \bar{\Lambda}_c(2286)$ annihilation reaction with a hadronic molecule scenario	DONG, Yubing
15:10	[92] Heavy quark spectroscopy at LHCb	WILLIAMS, Mark Richard James
15:35	[93] Inclusive charmonia production: color dipole approach vs perturbative QCD	PASECHNIK, Roman

### Session B: Hadron spectroscopy - Salón de Honor (16:20 - 18:00)

-Conveners: Yu Jia

time	[id] title	presenter
16:20	[126] Chiral transitions with magnetic fields of low magnitude	ROJAS, Juan Cristóbal
16:45	[95] The Early Physics Program with $\eta$ Decays in JLab's Hall D	MACK, David
17:10	[94] Measurements of Spin-Density Matrix Elements and the Spin Observable $\Sigma$ for the channel $\gamma p \rightarrow \rho^0 p$	ANDERSON, Mark
17:35	[128] Four-quark states with QCD sum rules	ZHANG, Ai-Lin
