

Seventh International Conference on Quarks and Nuclear Physics

Wednesday, 4 March 2015

Session D: Hot and dense partonic matter - Salón de Honor (16:40 - 18:00)

-Conveners: Tereza Mendes

time	[id] title	presenter
16:40	[107] Thermal photon production in relativistic heavy ion collisions with a magnetic background	MIZHER, Ana Julia
17:05	[108] The nucleon PDF inside dense nuclear medium	ROZYNEK, Jacek
17:30	[109] "Buddha's Light" of cumulative particles	KOPELIOVICH, Vladimir

Thursday, 5 March 2015

Session D: Hot and dense partonic matter - Salón de Honor (14:20 - 16:00)

-Conveners: Gastao Krein

time	[id] title	presenter
14:20	[118] Ridge and higher order flow harmonics as interplay of elliptic and triangular flows	ZABRODIN, Evgeny
14:45	[119] Heavy mesons in a hot medium: Manifestation of absorption	NEMCHIK, Jan
15:10	[120] Finite temperature quark-gluon vertex with a magnetic field in the hard thermal loop approximation	LOEWE, Marcelo
15:35	[121] RHIC Physics with sPHENIX	KISTENEV, Edouard

Session D: Hot and dense partonic matter - Salón de Honor (16:20 - 18:00)

-Conveners: Gastao Krein

time	[id] title	presenter
16:20	[122] Recent results on electroweak probes in lead-lead and proton-lead collisions from the ATLAS Detector at the LHC	BROOKS, William King
16:45	[123] ALICE results on open heavy-flavour production in pp, p-Pb and Pb-Pb collisions at the LHC	ALICI, Andrea
17:10	[124] News from NA61/SHINE	CZOPOWICZ, Tobiasz
17:35	[125] AdS/CFT, Confinement Deformation, and DIS at Small-x	RABEN, Timothy
