

Seventh International Conference on Quarks and Nuclear Physics

Wednesday, 4 March 2015

Session F: Effective field theories and QNP - Auditorium Principal (16:40 - 18:00)

time	[id] title	presenter
16:40	[104] Chiral phase transition in an extended linear sigma model	WOLF, György
17:00	[105] Deuteron photodisintegration and n-p capture within the Chiral Effective Field Theory	ROZPEDZIK, Dagmara
17:20	[106] Leading logarithms for the nucleon mass	BIJNENS, Johan
17:40	[127] Phenomenology of the heavy quarkonium E1 transition	MARTINEZ, Hector
