

ICTP and EPLANET

- **ICTP** has just joined EPLANET: **European Particle Physics Latin American Network**
- Provides funding for High Energy Physics related International Research Staff Exchange between EU and Argentina, Brazil, Chile and Mexico in both directions.
- ATLAS, CMS, LHCb, ALICE, THEORY, HE Computing, Pierre AUGER are all covered by the network
- Postdocs and more senior researchers can spend time in Latin America collaborating and/or participating in training activities
- Researchers from LA countries can travel to collaborate with scientists and institutes in EU
- Participation in ICTP workshops, schools and conferences both at ICTP and in LA countries through EPLANET welcomed
- Collaboration with researchers at ICTP welcomed
- **ICTP is keen to place secondments throughout 2014**
