

SGW2014

Tuesday, 9 December 2014

Opening session (14:30 - 19:00)

-Conveners: Andrea Dainese

time	[id] title	presenter
14:30	[9] Welcome	
14:40	[11] Recent results from p/dA collisions at LHC and RHIC	LOIZIDES, Constantinos
15:15	[13] Overview on heavy flavour and quarkonium production in pp collisions	Dr YANG, Zhenwei
15:50	[15] Experimental results on open heavy flavour in heavy-ion collisions: (few) outstanding open questions (and how to address them)	PRINO, Francesco
16:15	Coffee/tea	
16:45	[16] Experimental results on quarkonium in heavy-ion collisions: (few) outstanding open questions (and how to address them)	GRANIER DE CASSAGNAC, Raphael
17:10	[18] Quarkonium and open heavy flavour in a hot QCD medium	RAPP, Ralf
17:45	[19] Energy loss in pQCD and AdS/CFT	HOROWITZ, William
18:20	[23] Overview on diffraction	PASECHNIK, Roman
18:55	[54] Hicief WP proposal within HadronPhysicsHorizon	BRUNO, Giuseppe
