### Open heavy flavour production (09:00 - 13:20)

-Conveners: **Andrea Dainese; Pol Gossiaux; Diego Stocco**

time	[id] title	presenter
09:00	[10] Heavy flavour in Au-Au collisions at RHIC	BIELCIK, Jaroslav
09:30	[12] Heavy flavour in Pb-Pb collisions at LHC with ALICE	BASTID, Nicole
09:55	[14] Heavy flavour in Pb-Pb collisions at LHC with CMS	INNOCENTI, Gian Michele
10:20	[24] pQCD energy loss and flavour dependence in CUJET2.0	XU, Jiechen
10:45	Coffee/tea	
11:15	[22] Role of interaction dynamics and of hadronization mechanisms in heavy-flavour production in AA collisions	GRECO, Vincenzo
11:40	[33] Heavy flavour correlations: theory	Dr NAHRGANG, Marlene
12:05	[21] MC@SHQ+EPOS3 and D meson interaction	OZVENCHUK, Vitalii
12:30	[20] Open heavy flavors in QGP and hadron gas in heavy-ion collisions	QIN, Guang-You
12:55	[17] Heavy flavour correlations: experimental results and prospects	ROSSI, Andrea
