Session Program

14–25 Jul 2014

2nd Summer School on INtelligent signal processing for FrontIEr Research and Industry

Fourth Morning Session

University Paris-Diderot, Paris, France, BioPark Auditorium and Physics Department, Building Condorcet

Friday 18 July

09:00

Fourth Morning Session
Session | **Location:** BioPark Auditorium

09:00–10:15

On-detector Signal Processing for Large area tracking system based on Silicon strips

Speaker
Dr Stefano Mersi

Location
BioPark Auditorium

10:15–11:15 **Real time (Level-1) Track Triggering: Technological challenges**

Speaker
Dr Stefano Mersi

Location
BioPark Auditorium

11:15–11:45 **Coffee Break**

11:45–13:00

Large Area tracking systems based on Scintillating Fibers read out by SiPM's

Speaker
Dr Christian Joram

Location
BioPark Auditorium

13:00
