Session Program

14–25 Jul 2014

2nd Summer School on INtelligent signal processing for FrontIEr Research and Industry

Third Morning Session

University Paris-Diderot, Paris, France, BioPark Auditorium and Physics Department, Building Condorcet

Thursday 17 July

09:00

Third Morning Session
Session | **Location:** BioPark Auditorium

09:00–10:00

The Veloce Emulator and its Use for Verification and System Integration of Complex Multi-node SOC Computing Systems (ie. the Next Generation Veloce Emulator)

Speaker
Laurent Vuillemin

Location
BioPark Auditorium

10:00–11:00

New calorimeters for Space experiments: Physics requirements and technological challenges

Speaker
Prof. Pier Simone Marrocchesi

Location
BioPark Auditorium

11:00–11:30 **Coffee Break**

11:30–13:00

New trends and different strategies on Triggering in High Energy Physics

Speaker
Prof. Geoffrey Hall

Location
BioPark Auditorium

13:00
