

## **Session Program**

**19-24 Feb 2007**

# **11th Vienna Conference on Instrumentation - VCI 2007**

## ***Session 9***

Univ. of Technology, HS1  
Wiedner Hauptstrasse 8-10 Vienna, Austria

# Friday 23 February

09:00

## Session 9

**Session** | **Location:** Univ. of Technology, HS1, Wiedner Hauptstrasse 8-10 Vienna, Austria

09:00-09:50

### Detectors for particle identification

**Speaker**

Peter Krizan

09:55-10:15

### The ATLAS Transition Radiation Tracker: from construction to assembly in the ATLAS cavern

**Speaker**

Franck Martin

10:20-10:40

### High Counting Rate Transition Radiation Detector

**Speaker**

Mariana Petris

10:45-11:15

### Coffee break

11:20-11:40

### The LHCb RICH Detectors

**Speaker**

Gabriel Vidal-Sitjes

11:45-12:05

### Experience from the construction and installation of the HMPID CsI-RICH detector in ALICE

**Speaker**

Abraham Antonio Gallas Torreira

12:10-12:30

### The Fast Photon Detection System of COMPASS RICH-1

**Speaker**

Fulvio Tassarotto

12:35
