

## **2.4 Project management for the M1 programme and working with industry (ILL)**

*Monday 19 May 2014 16:15 (15 minutes)*

The talk will present the project management successfully system implemented at the ILL in 2007 for the implementation of the Millennium program M1 (a 7years/50M€ investment program for the upgrade of the ILL scientific instrument suite and their related infrastructure). ILL is currently reconsidering the way to interact with industry. Some of such strategic considerations will be presented, as well as the possible associated means foreseen.

**Presenter:** BEAUCOUR, Jerome (ILL)

**Session Classification:** Session 2
