

3.4 Project management processes at the European XFEL project (XFEL)

Tuesday 20 May 2014 09:45 (15 minutes)

The project organization and the management processes for the realization of the European XFEL are described in the XFEL project Handbook. This handbook contains descriptions of the rules and responsibilities within the project and an outline of the main project management processes scheduling, resource planning, project internal reporting and follow-up. These processes are supported by a central project management system.

Presenter: WICHMANN, R. (XFEL)

Session Classification: Session 3
